

1. Record Nr.	UNINA9910142496503321
Titolo	Diabetic nephropathy // edited by Christoph Hasslacher
Pubbl/distr/stampa	Chichester, West Sussex, England : , : John Wiley & Sons, Ltd, , 2001 ©2001
ISBN	1-280-55539-4 9786610555390 0-470-31852-X 0-470-85372-7 0-470-84644-5
Descrizione fisica	1 online resource (335 p.)
Collana	Diabetes in Practice
Disciplina	616.61
Soggetti	Diabetic nephropathies Diabetes - Complications Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Diabetic Nephropathy; Contents; List of Contributors; Preface; 1 Diabetic Nephropathy--the Size of the Problem; 2 Natural Course of Diabetic Nephropathy; 3 Pathogenesis of Diabetic Nephropathy: Biochemical and Functional Alterations of Glomerular Basement Membrane and Mesangium; 4 Pathogenesis of Diabetic Nephropathy: Haemodynamic Alterations; 5 Renal Structural Damage in IDDM and NIDDM--Functional Relationships; 6 Diabetic Nephropathy in Children and Adolescents; 7 Genetic Predictors and Markers of Diabetic Nephropathy 8 Screening for and Diagnosis of Incipient Diabetic Nephropathy (IDN) in Diabetes 9 Differential Diagnosis of Proteinuria in Diabetic Patients; 10 Hypertension in Diabetic Nephropathy; 11 Cardiovascular Complications in Proteinuric Diabetic Patients; 12 Lipid Disorders in Diabetic Nephropathy; 13 Eye Complications in Diabetic Nephropathy; 14 Pregnancy and Diabetic Nephropathy; 15 Effect of Glycaemic Control on the Development and Progression of Diabetic Nephropathy; 16

Blood Pressure Control in Hypertensive Diabetic Patients with Proteinuria
17 Early Antihypertensive Intervention in Diabetic Patients with Incipient Nephropathy
18 Dietary Modications in Patients with Diabetic Nephropathy;
19 Training of Patients with Diabetic Nephropathy;
20 Endstage Renal Failure in Diabetes Mellitus: Special Problems of Treatment and Monitoring;
21 Prognosis of Patients with Diabetic Nephropathy; Index

Sommario/riassunto

This volume will focus on and emphasise the clinical relevance of diabetic nephropathy, a relatively common problem of diabetes. It affects about one in three patients with Type 1 diabetes, and left untreated can lead to a progressive decline in renal function, accompanied by retinopathy and arterial hypertension, which, in turn, leads to cardiovascular disease - a common cause of death in these patients. Diabetic Nephropathy will also provide the reader with a solid grounding in current basic and clinical research.
