Record Nr.	UNINA9910142500003321
Titolo	Culture of epithelial cells [[electronic resource] /] / editors, R. lan Freshney and Mary G. Freshney
Pubbl/distr/stampa	New York, : Wiley-Liss, c2002
ISBN	1-280-54172-5 9786610541720 0-471-45912-7 0-471-22120-1
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (479 p.)
Collana	Culture of specialized cells
Altri autori (Persone)	FreshneyR. Ian FreshneyMary G
Disciplina	611.0187 611/.0187
Soggetti	Epithelial cells Cell culture Epithelium - Cultures and culture media
Lingua di pubblicazione	Inglese
Lingua di pubblicazione Formato	Inglese Materiale a stampa
Lingua di pubblicazione Formato Livello bibliografico	Inglese Materiale a stampa Monografia
Lingua di pubblicazione Formato Livello bibliografico Note generali	Inglese Materiale a stampa Monografia Description based upon print version of record.
Lingua di pubblicazione Formato Livello bibliografico Note generali Nota di bibliografia	Inglese Materiale a stampa Monografia Description based upon print version of record. Includes bibliographical references and index.
Lingua di pubblicazione Formato Livello bibliografico Note generali Nota di bibliografia Nota di contenuto	Inglese Materiale a stampa Monografia Description based upon print version of record. Includes bibliographical references and index. CULTURE OF EPITHELIAL CELLS Second Edition; Contents; Contributors; Preface; Preface to First Edition; List of Abbreviations; Chapter 1. Introduction; Chapter 2. Cell Interaction and Epithelial Differentiation; Chapter 3. The Epidermis; Chapter 4. Culture of Human Mammary Epithelial Cells; Chapter 5. Culture of Human Cervical Epithelial Cells; Chapter 6. Human Prostatic Epithelial Cells; Chapter 7. Human Oral Epithelium; Chapter 8. Normal Human Bronchial Epithelial Cell Culture; Chapter 9. Isolation and Culture of Pulmonary Alveolar Epithelial Type II Cells Chapter 10. Isolation and Culture of Intestinal Epithelial CellsChapter 11. Isolation and Culture of Animal and Human Hepatocytes; Chapter 12. Culture of Human Urothelium; Chapter 13. Other Epithelial Cells; List of Suppliers; Index

1.

years.""-Pharmaceutical Research This completely revised and expanded new edition provides detailed descriptions of fundamental and practical aspects relating to the in vitro cultivation of disparate types of epithelia. In recent years, the use of epithelial cell culture in cell biology and tissue engineering has increased dramatically. This revision reflects those adv
