Ecological Logistics In The Processes Of Restoration Of Cattle Breeding In The Deoccupied Territories Of Ukraine.

Sommario/riassunto

This book explores the integration of AI technologies with emerging trends such as IoT, blockchain, and cloud computing. In this book readers will embark on a transformative journey that explores the powerful convergence of Artificial Intelligence (AI), Internet of Things (IoT), and business management. With the advent of these cutting-edge technologies, businesses have unprecedented opportunities to revolutionize their operations, drive innovation, and achieve remarkable success in today's digital landscape.
