Sommario/riassunto

Handbook of Interventions that Work with Children and Adolescents, considers evidence-based practice to assess the developmental issues, aetiology, epidemiology, assessment, treatment, and prevention of child and adolescent psychopathology. World-leading contributors provide overviews of empirically validated intervention and prevention initiatives. Arranged in three parts, Part I lays theoretical foundations of "treatments that work" with children and adolescents. Part II presents the evidence base for the treatment of a host of behaviour problems, whilst Part III contains e
