Sommario/riassunto	This is the eighteenth in the most prestigious series of annual volumes in the field of industrial and organizational psychology. The series provides authoritative and integrative reviews of the key literature of

industrial psychology and organizational behavior. The chapters are written by established experts and topics are carefully chosen to reflect the major concerns in the research literature and in current practice. Specific issues covered in this volume reflect the growth and complexity of the organizational psychology field, for example: Implicit Knowledge and Experience in W
