

1. Record Nr.	UNINA9910143254603321
Titolo	Handbook of microalgal culture : biotechnology and applied phycology // edited by Amos Richmond
Pubbl/distr/stampa	Oxford, OX, UK ; ; Ames, Iowa, USA, : Blackwell Science, 2004
ISBN	1-280-28483-8 9786610284832 0-470-70947-2 1-4051-2832-1 0-470-99528-9 1-4051-7249-5
Descrizione fisica	1 online resource (586 p.)
Altri autori (Persone)	RichmondAmos
Disciplina	579.8 639.8
Soggetti	Algae culture Microalgae - Biotechnology Algology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Handbook of Microalgal Culture: Biotechnology and Applied Phycology; Contents; List of Contributors; Preface; Acknowledgments; Part I The Microalgae: With Reference to Mass-Cultivation; 1 The Microalgal Cell; 2 Photosynthesis in Microalgae; 3 Basic Culturing Techniques; 4 Environmental Stress Physiology; 5 Environmental Effects on Cell Composition; Part II Mass Cultivation of Microalgae; 6 Algal Nutrition - Mineral Nutrition; 7 Algal Nutrition - Heterotrophic Carbon Nutrition; 8 Biological Principles of Mass Cultivation; 9 Mass Production of Microalgae: Photobioreactors 10 Downstream Processing of Cell-mass and ProductsPart III Economic Applications of Microalgae; 11 Industrial Production of Microalgal Cell- mass and Secondary Products - Major Industrial Species - Chlorella; 12 Industrial Production of Microalgal Cell-mass and Secondary Products - Major Industrial Species - Arthrospira (Spirulina) platensis; 13 Industrial Production of Microalgal Cell-mass and Secondary Products - Major

Industrial Species - Dunaliella; 14 Industrial Production of Microalgal Cell-mass and Secondary Products - Species of High Potential - Haematococcus
15 Industrial Production of Microalgal Cell-mass and Secondary Products - Species of High Potential - Porphyridium sp.16 Industrial Production of Microalgal Cell-mass and Secondary Products - Species of High Potential - Mass Cultivation of Nannochloropsis in Closed Systems; 17 Industrial Production of Microalgal Cell-mass and Secondary Products - Species of High Potential - Nostoc; 18 Microalgae in Human and Animal Nutrition; 19 Microalgae for Aquaculture - The Current Global Situation and Future Trends; 20 Microalgae for Aquaculture - Microalgae Production for Aquaculture
21 Microalgae for Aquaculture - The Nutritional Value of Microalgae for Aquaculture22 N2-fixing Cyanobacteria as Biofertilizers in Rice Fields; 23 Hydrogen and Methane Production by Microalgae; 24 Water Pollution and Bioremediation by Microalgae - Eutrophication and Water Poisoning; 25 Water Pollution and Bioremediation by Microalgae - Water Purification: Algae in Wastewater Oxidation Ponds; 26 Water Pollution and Bioremediation by Microalgae - Absorption and Adsorption of Heavy Metals by Microalgae
27 Water Pollution and Bioremediation by Microalgae - Impacts of Microalgae on the Quality of Drinking WaterPart IV New Frontiers; 28 Targeted Genetic Modification of Cyanobacteria: New Biotechnological Applications; 29 Microalgae as Platforms for Recombinant Proteins; 30 Bioactive Chemicals in Microalgae; 31 Heterotrophic Production of Marine Algae for Aquaculture; 32 N2-fixing Cyanobacteria as a Gene Delivery System for Expressing Mosquitocidal Toxins of Bacillus thuringiensis subsp. israelensis; 33 The Enhancement of Marine Productivity for Climate Stabilization and Food Security; Index

Sommario/riassunto

Handbook of Microalgal Culture is truly a landmark publication, drawing on some 50 years of worldwide experience in microalgal mass culture. This important book comprises comprehensive reviews of the current available information on microalgal culture, written by 40 contributing authors from around the globe. The book is divided into four parts, with Part I detailing biological and environmental aspects of microalgae with reference to microalgal biotechnology and Part II looking in depth at major theories and techniques of mass cultivation. Part III comprises chapters on th
