Sommario/riassunto

This book is an introduction to the war machine of New Kingdom Egypt from c. 1575 bc-1100 bc. Focuses on the period in which the Egyptians created a professional army and gained control of Syria, creating an "Empire of Asia". Written by a respected Egyptologist. Highlights new technological developments, such as the use of chariots and siege technology. Considers the socio-political aspects of warfare, particularly the rise to power of a new group of men. Evaluates the military effectiveness of the Egyptian state, looking at the logistics of warfare duri
