

1. Record Nr.	UNINA9910452465503321
Autore	Cibulka Nancy J
Titolo	Guidelines for nurse practitioners in ambulatory obstetric settings [[electronic resource] /] / Nancy J. Cibulka, Mary Lee Barron
Pubbl/distr/stampa	New York, NY, : Springer, c2013
ISBN	0-8261-9558-X
Descrizione fisica	1 online resource (361 p.)
Altri autori (Persone)	BarronMary Lee
Disciplina	618.2/0231
Soggetti	Pregnancy - Complications Ambulatory medical care Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Title; Copyright; Contents; Contributing Author; Foreword; Preface; Acknowledgments; Reviewers; Part I: Guidelines for Preparation for Pregnancy; Chapter 1: Preconception Counseling and Care; A. Background; B. Recommendations to Improve Preconception Health; C. History; D. Physical Examination; E. Laboratory and Diagnostic Testing; F. Education; G. Fertility Health Promotion; H. Referral/Consultation; I. Follow-Up; Bibliography; Chapter 2: Screening for Genetic Disorders and Genetic Counseling-Preconception and Early Pregnancy; I. Genetics and Genetic Testing II. Initial History for Genetic Risk FactorsIII. Prenatal Genetic Screening Tests; IV. Prenatal Genetic Carrier Screening; V. Teratogen Recognition; VI. Genetic Counseling and Indications for Referral; Bibliography; Part II: Guidelines for Routine Prenatal and Postpartum Care; Chapter 3: The First Prenatal Visit; I. General Guidelines; II. Screening Tools; III. Physical Examination; IV. Diagnostic and Laboratory Examination for the First Prenatal Visit; V. Common Discomforts in the First Trimester; VI. First Trimester Education/Anticipatory Guidance; Bibliography Chapter 4: Ongoing Prenatal Care A. Interim History; B. Physical Examination; C. Laboratory; D. Ultrasound Examination (Second and Third Trimester); E. Pregnancy Management; F. Modifiable Risk Factors; G. Pregnancy Discomforts; H. Second Trimester Education; I. Third Trimester Education; Bibliography; Chapter 5: Medication Use in

Pregnancy; A. Food and Drug Administration Rating System; B. Risk Versus Benefit and Other Therapies; C. Proactive Guidance; Bibliography; Chapter 6: Antenatal Fetal Surveillance; A. Indications for Antenatal Fetal Surveillance; B. General Recommendations C. Nonstress Test D. Amniotic Fluid Index; E. Biophysical Profile; F. Transabdominal Ultrasound for Growth; G. Doppler Velocimetry; H. Fetal Lung Maturity Testing; I. Surveillance Methods of the Future; Bibliography; Chapter 7: Postpartum Care in the Ambulatory Setting; I. Definitions; II. Physical Examination at the 4- to 6-Week Postpartum Visit; III. Management; IV. Breastfeeding; Bibliography; Chapter 8: Postpartum Complications; I. Postpartum Hemorrhage; II. Postpartum Endometritis; III. Surgical Site Infections of Abdomen and Perineum; IV. Postpartum Thromboembolism V. Lactational Mastitis and Breast Abscess VI. Candida Infection of the Breasts; VII. Postpartum Depression (PPD); Bibliography; Part III: Guidelines for Management of Common Problems of Pregnancy; Chapter 9: Oral Health and Oral Health Problems in Pregnancy; A. Risk Factors for Periodontal Problems; B. History; C. Physical Examination; D. Laboratory and Diagnostic Studies; E. Differential Diagnoses; F. Management of Dental Problems in Pregnancy; G. Dental Procedures During Pregnancy; H. Complications of Dental Abscess and/or Periodontitis; I. Consultation/Referral; J. Follow-Up; Bibliography Chapter 10: Iron Deficiency Anemia in Pregnancy

Sommario/riassunto

""The authors have crafted a very user-friendly set of guidelines, identifying the steps in assessment of patients for risks, outlining the objectives for care from preconception through postpartum, and addressing care for pregnant HIV positive women [the book] includes avenues to electronic resources to assist them in accessing the newest information in ever-evolving and changing practice environments."" - Joellen W. Hawkins , RNC, PhD, FAAN. Professor Emeritus, Boston College Connell School of Nursing. Writer in Residence, Simmons College, School of Nursing and Health Sciences. This is the o

[et al.] -- Fundamentals of culture and characterization of mesenchymal stem/progenitor cells (MSCs) from bone marrow stroma / Carl A. Gregory and Darwin J. Prockop -- Isolation, characterization, and culture of soft connective tissue stem/progenitor cells / Charles W. Archer ... [et al.] -- Culture of human corneal stem cells / Yiqin Du and James L. Funderburgh -- Culturing mammary stem cells / Mark A.

Labarge, Ole W. Petersen, and Mina J. Bissell -- Tissue culture of adipose-derived stem cells / Kristine M. Safford and Henry E. Rice.

Sommario/riassunto

This book collects the most effective and cutting-edge methods and protocols for deriving and culturing human embryonic and adult stem cells-in one handy resource. This groundbreaking book follows the tradition of previous books in the Culture of Specialized Cells Series- each methods and protocols chapter is laid out exactly like the next, with stepwise protocols, preceded by specific requirements for that protocol, and a concise discussion of methods illustrated by data. The editors describe a limited number of representative techniques across a wide spectrum of stem cells from embryo
