1. Record Nr.            UNINA9910143905603321

   Titolo                Financial cryptography : 5th International Conference, FC 2001, Grand
                         Cayman, British West Indies, February 19-22, 2001 : proceedings / /
                         Paul F. Syverson (ed.)

   Pubbl/distr/stampa    Berlin, Germany ; ; New York, New York : , : Springer, , [2002]
                         ©2002

   ISBN                  3-540-46088-8

   Edizione              [1st ed. 2002.]

   Descrizione fisica    1 online resource (IX, 379 p.)

   Collana               Lecture Notes in Computer Science, , 0302-9743 ; ; 2339

   Disciplina            332.1/0285

   Soggetti              Internet - Security measures
                         Electronic funds transfers - Security measures
                         Electronic commerce - Security measures
                         Computer networks - Security measures
                         Data encryption (Computer science)

   Lingua di pubblicazione   Inglese

   Formato               Materiale a stampa

   Livello bibliografico Monografia

   Note generali         Bibliographic Level Mode of Issuance: Monograph

   Nota di bibliografia  Includes bibliographical references and index.

   Nota di contenuto     Managing Payment Transaction Costs -- Amortized E-Cash -- Offline
                         Micropayments without Trusted Hardware -- Panel (I) -- The Practical
                         Problems of Implementing MicroMint -- Protecting Digital Rights --
                         Aspects of Digital Rights Management and the Use of Hardware Security
                         Devices -- A Solution to the Napster Phenomenon: Why Value Cannot
                         Be Created Absent the Transfer of Subjective Data -- Golden Times for
                         Digital Rights Management? -- Applicability of Public Key
                         Cryptosystems to Digital Rights Management Applications -- Trust and
                         Risk Management -- On the Global Content PMI: Improved Copy-
                         Protected Internet Content Distribution -- Trust: A Collision of
                         Paradigms -- Groups and Anonymity -- On the Security of Homage
                         Group Authentication Protocol -- Anonymity without 'Cryptography' --
                         Fair Tracing without Trustees -- Invited Talk -- Why the War on Money
                         Laundering Should Be Aborted -- Certificates and Authentication --
                         Provably Secure Implicit Certificate Schemes -- Nonmonotonicity, User
                         Interfaces, and Risk Assessment in Certificate Revocation -- Mutual
                         Authentication for Low-Power Mobile Devices -- Credit Card Security
