

1. Record Nr.	UNINA9910144013603321
Titolo	Advances in enzymology and related areas of molecular biology . Volume 51 [[electronic resource] /] / edited by Alton Meister
Pubbl/distr/stampa	New York, : Wiley, 1980
ISBN	1-282-30110-1 9786612301100 0-470-12296-X 0-470-12375-3
Edizione	[11th ed.]
Descrizione fisica	1 online resource (328 p.)
Collana	Advances in enzymology and related areas of molecular biology ; ; 51
Altri autori (Persone)	MeisterAlton
Disciplina	574.192 612.015
Soggetti	Clinical enzymology Enzymes Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	ADVANCES IN ENZYMOLOGY AND RELATED AREAS OF MOLECULAR BIOLOGY; CONTENTS; Cryoenzymology in Aqueous Media; The Utilization of Binding Energy in Coupled Vectorial Processes; The Reactions and the Structures of Molybdenum Centers in Enzymes; Adenosine Deaminase Deficiency and Severe Combined Immunodeficiency Disease; The Enzymology of 2,3-Bisphosphoglycerate; Author Index; Subject Index; Cumulative Indexes, Vols. 1-50
Sommario/riassunto	Cryoenzymology in Aqueous Media (P. Douzou). The Utilization of Binding Energy in Coupled Vectorial Processes (W. Jencks). The Reactions and the Structures of Molybdenum Centers in Enzymes (R. Bray). Adenosine Deaminase Deficiency and Severe Combined Immunodeficiency Disease (L. Thompson and J. Seegmiller). The Enzymology of 2,3-Bisphosphoglycerate (Z. Rose). Subject & Author Indexes. Cumulative Indexes, Volumes 1-50.
