Sommario/riassunto	In today's climate, these is a powerful need for a balanced, expert and

accessible account of the psychology of terrorists and terrorism. Written by an expert team of psychologists and psychiatrists, these contributors have direct experience of working with terrorists, victims and those tasked with the enormous responsibility of attempting to combat terrorism. The first section focuses on terrorists as individuals and as groups and provides a balanced and objective insight into the psychology of terrorists; what their motivations are and what keeps them involved in terror
