

1. Record Nr.	UNINA9910144305703321
Titolo	Progress in inorganic chemistry . Volume 40 [[electronic resource] /] / edited by Stephen J. Lippard
Pubbl/distr/stampa	New York, : Interscience, 1992
ISBN	1-282-30662-6 9786612306624 0-470-16641-X 0-470-16698-3
Descrizione fisica	1 online resource (600 p.)
Collana	Progress in inorganic chemistry ; ; 40
Altri autori (Persone)	LippardStephen J
Disciplina	546 546.082
Soggetti	Chemistry, Inorganic Chemistry Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	PROGRESS IN INORGANIC CHEMISTRY; Contents; Coupling Reactions of Terminal Two-Faced pi Ligands and Related Cleavage Reactions; The Interface of Nanoscale Inclusion Chemistry; Polydentate Phosphines: Their Syntheses, Structural Aspects, and Selected Applications; Iron- and Cobalt-Induced Activation of Hydrogen Peroxide and Dioxygen for the Selective Oxidation-Dehydrogenation and Oxygenation of Organic Molecules; Sterically Demanding Fluorinated Substituents and Metal Fluorides with Bulky Ligands Coordination Chemistry of Thionitrosyl (NS), Thiazate (NSO-), Disulfidothionitrate (S3N-), Sulfur Monoxide (SO), and Disulfur Monoxide (S2O) LigandsThermodynamics of Ligand Binding and Exchange in Organometallic Reactions; Subject Index; Cumulative Index, Volumes 1-40
Sommario/riassunto	Coupling Reactions of Terminal Two-Faced pi Ligands and Related Cleavage Reaction (A. Mayr & C. Bastos). The Interface of Nanoscale Inclusion Chemistry (G. Stucky). Polydentate Phosphines: Their Synthesis, Structural Aspects and Selected Applications (F. Cotton & B.

Hong). Iron- and Cobalt-Induced Activation of Hydrogen Peroxide and Dioxygen for the Selective Oxidation/Dehydrogenation and Oxygenation of Organic Molecules (A. Sobkowiak, et al.). Sterically Demanding Fluorinated Substituents and Metal Fluorides with Bulky Ligands (M. Witt & H. Roesky). Coordination Chemistry of Thionitrosyl (NS)
