

1. Record Nr.	UNINA9910795668203321
Autore	IAEA
Titolo	Selecting Megavoltage Treatment Technologies in External Beam Radiotherapy
Pubbl/distr/stampa	Vienna : , : IAEA, , 2022 ©2022
ISBN	9789201169211 9789201168214
Descrizione fisica	1 online resource (58 pages)
Collana	IAEA Human Health Reports ; ; v.17
Soggetti	Radiotherapy, High-Energy Radiology Department, Hospital Radiation Equipment and Supplies
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910144345803321
Titolo	Knowledge-Based Intelligent Information and Engineering Systems : 8th International Conference, KES 2004, Wellington, New Zealand, September 20–25, 2004. Proceedings / / edited by Mircea Gh. Negoita
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2004
ISBN	3-540-30132-1
Edizione	[1st ed. 2004.]
Descrizione fisica	1 online resource (CXVI, 1282 p.)
Collana	Lecture Notes in Artificial Intelligence ; ; 3213
Disciplina	006.3
Soggetti	Artificial intelligence Application software Information storage and retrieval Computers and civilization Management information systems Computer science Artificial Intelligence Information Systems Applications (incl. Internet) Information Storage and Retrieval Computer Appl. in Administrative Data Processing Computers and Society Management of Computing and Information Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Sommario/riassunto	We were very pleased to once again extend to the delegates and, we are pleased to th say, our friends the warmest of welcomes to the 8 International Conference on Knowledge-Based Intelligent Information and Engineering Systems at Wellington - stitute of Technology in Wellington, New Zealand. The KES conferences attract a wide range of interest. The broad focus of the c- ference series is the theory and applications of computational intelligence and em- gent technologies.

Once purely a research field, intelligent systems have advanced to the point where their abilities have been incorporated into many conventional application areas. The quest to encapsulate human knowledge and capabilities in domains such as reasoning, problem solving, sensory analysis, and other complex areas has been avidly pursued. This is because it has been demonstrated that these abilities have definite practical applications. The techniques long ago reached the point where they are being exploited to provide commercial advantages for companies and real beneficial effects on profits. KES 2004 provided a valuable mechanism for delegates to obtain a profound view of the latest intelligent systems research into a range of algorithms, tools and techniques. KES 2004 also gave delegates the chance to come into contact with those applying intelligent systems in diverse commercial areas. The combination of theory and practice represents a uniquely valuable opportunity for appreciating the full spectrum of intelligent-systems activity and the "state of the art".
