#### Sommario/riassunto

Debbaut explains how typical manifestations of autism spectrum disorders, such as running away, unsteadiness, impulsive behavior or failure to respond, may be misunderstood by law enforcement professionals, with serious consequences. For individuals with ASDs, he offers advice on how to behave in encounters with law enforcement professionals.

Sommario/riassunto

Open dating plays a vital role in the distribution of the food products from the farm or place of manufacturing to the consumer's home. One principle is that the shelf life is a function of the distribution conditions and can be looked at as the percentage of consumers a manufacturer is willing to displease. Thus, one purpose of an open date is to give consumers enough time to purchase a food product and store it at home for a reasonable period of time before the product reaches the end of shelf-life in terms of some degree of quality change that is still acceptable. If products are not
