

1. Record Nr.	UNINA9910144385503321
Titolo	The microbiological safety of food in healthcare settings [[electronic resource] /] / edited by Barbara M. Lund, Paul R. Hunter
Pubbl/distr/stampa	Oxford, UK ; ; Ames, Iowa, : Blackwell Pub., 2008
ISBN	1-282-12292-4 9786612122927 0-470-69775-X 0-470-69802-0
Descrizione fisica	1 online resource (402 p.)
Altri autori (Persone)	LundBarbara M HunterPaul R
Disciplina	363.19/26
Soggetti	Health facilities - Food service - Safety measures Health facilities - Food service - Quality control Foodborne diseases - Prevention Food - Microbiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Properties of microorganisms that cause foodborne disease / Barbara M. Lund -- The surveillance of foodborne disease and its application in healthcare settings / John M. Cowden and Jacqui Reilly -- Foodborne disease outbreaks in healthcare settings / Sarah J. O'Brien -- Vulnerable populations and their susceptibility to foodborne diseases / David W.K. Acheson and Lisa F. Lubin -- Provision of food in healthcare settings / Dinah Barrie -- Provision of water in healthcare settings / Paul R. Hunter -- Practical implementation of food safety management systems in healthcare settings / Jon-Mikel Woody and Dianne L. Benjamin.
Sommario/riassunto	Drawing together the work of a wide range of experts, this extremely important book provides a clear, practical account of the salient features of foodborne pathogenic microorganisms and of the particular risks that they pose to vulnerable groups of the population in hospitals, nursing and residential homes, nurseries, and in the community at large.
