Sommario/riassunto	Exhibition Experiments is a lively collection that considers experiments with museological form that challenge our understanding of - and experience with - museums. Explores examples of museum experimentalism in light of cutting-edge museum theory Draws on a range of global and topical examples, including museum experimentation, exhibitionary forms, the fate of conventional notions of 'object' and 'representation', and the impact of these changes Brings

together an international group of art historians, anthropologists, and  
sociologists to question traditional disciplinary boundaries Co
