

1. Record Nr.	UNINA9910144587103321
Titolo	Handbook of Reliability Engineering
Pubbl/distr/stampa	[Place of publication not identified], : Wiley Interscience Imprint, 1994
ISBN	0-470-17241-X
Disciplina	620/.00452
Soggetti	Reliability (Engineering) Industrial & Management Engineering Mechanical Engineering Engineering & Applied Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
2. Record Nr.	UNINA9910783540603321
Autore	Bangle Breet
Titolo	Installing WebSphere Studio Application Monitor V3.1 [[electronic resource] /] / Breet "Chuck" Bangle, Nichole Cargill, Dennis Moore
Pubbl/distr/stampa	Research Triangle Park, N.C., : IBM, International Technical Support Organization, 2005
Edizione	[1st ed.]
Descrizione fisica	1 online resource (512 p.)
Collana	Redbooks
Disciplina	005.3/76
Soggetti	Web servers - Programming Application software
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"This edition applies to version 3, release 1, modification 0 of IBM WebSphere Studio Application Monitor for Multiplatforms (product number 5724-K79)." "July 2005."
Nota di bibliografia	Includes bibliographical references and index.

## Sommario/riassunto

This IBM Redbooks publication is for installers of IBM WebSphere Studio Application Monitor for Multiplatforms, including performance analysts, WebSphere administrators, and technical managers. Our goal is to provide a useful overview about installing WebSphere Studio Application Monitor and, more importantly, to offer step-by-step instructions with detailed examples and illustrations. Part 1 of this book is an executive overview of IBM WebSphere Studio Application Monitor Version 3.1. Part 2 provides more detailed descriptions about WebSphere Studio Application Monitor installation and configuration planning. Part 3 is about installing the Application Monitor Managing Server. We provide detailed step-by-step installation instructions. Part 4 describes the installation of the Data Collector component that monitors WebSphere Application Server in distributed environments (Microsoft Windows, IBM AIX 5L, Linux, and Sun Solaris). Part 5 describes the installation of the Data Collector components for monitoring WebSphere Application Server, CICS Transaction Server for z/OS, and IMS for z/OS. Part 6 contains supplemental information that might be of help in your installation efforts, including additional testing and verification procedures, and guidance and troubleshooting suggestions. Part 7 contains appendixes with additional reference material.
