

1. Record Nr.	UNINA9910144602603321
Titolo	Computational science and its applications - ICCSA 2006 : international conference, Glasgow, UK, May 8-11, 2006 : proceedings. Part I // Marina Gavrilova ... [et al.] (eds.)
Pubbl/distr/stampa	Berlin ; ; New York, : Springer, c2006
ISBN	3-540-34071-8
Edizione	[1st ed. 2006.]
Descrizione fisica	1 online resource (CL, 1204 p.)
Collana	Lecture notes in computer science, , 0302-9743 ; ; 3980 LNCS sublibrary. SL 1, Theoretical computer science and general issues Computational science and its applications - ICCSA 2006 : international conference, Glasgow, UK, May 8-11, 2006 : proceedings ; ; pt. 1
Altri autori (Persone)	GavrilovaMarina L
Disciplina	004
Soggetti	Computer science Computational complexity
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Workshop on Computational Geometry and Applications (CGA 2006) -- Workshop on Virtual Reality in Scientific Applications and Learning (VRSAL 2006) -- Workshop on Visual Computing and Multimedia (VCM 2006) -- Technical Session on Web Based Learning (WBL 2006) -- Technical Session on Computer Graphics (TSCG 2006) -- Workshop on Modeling Complex Systems (MCS 2006) -- Workshop on Structures and Molecular Processes (SMP 2006) -- Workshop on Specific Aspects of Computational Physics and Wavelet Analysis for Modelling Suddenly-Emerging Phenomena in Nonlinear Physics, and Nonlinear Applied Mathematics (PULSES 2006) -- Workshop on Geocomputation (GC 2006) -- Workshop on Pattern Recognition and Ubiquitous Computing (PRUC 2006) -- Workshop on Data Storage Devices and Systems (DSDS 2006) -- Technical Session on Technologies and Techniques for Distributed Data Mining (TTDM 2006) -- General Tracks.
Sommario/riassunto	This 7-volume set was compiled following the 2006 International Conference on Computational Science and its Applications, ICCSA 2006, held in Glasgow, UK, during May 8–11, 2006. It represents the outstanding collection of almost 664 refereed papers selected from over 2,450 submissions to ICCSA 2006. Computational science has ?

rmly established itself as a vital part of many scienti?c investigations, a?ecting researchers and practitioners in areas ranging from applications such as aerospace and automotive, to emerging technologies such as bioinformatics and nanotechnologies, to core disciplines such as mathematics, physics, and chemistry. Due to the sheer size of many challenges in computational science, the use of supercomputing, parallel processing, and sophisticated algorithms is inevitable and becomes a part of fundamental theoretical research as well as endeavors in emerging fields. Together, these far-reaching scienti?c areas contributed to shaping this conference in the realms of state-of-the-art computational science research and applications, encompassing the facilitating theoretical foundations and the innovative applications of such results in other areas.
