

1. Record Nr.	UNINA9910144667003321
Autore	Symposium CIBA Foundation
Titolo	The Human Adrenal Cortex [[electronic resource] ] : Volume 8: Book II of Colloquia on Endocrinology
Pubbl/distr/stampa	Hoboken, : Wiley, 2009
ISBN	0-470-71521-9 0-470-71490-5
Descrizione fisica	1 online resource (417 p.)
Collana	Novartis Foundation Symposia
Disciplina	616.4/027 616.4027
Soggetti	Endocrinology Hormones Steroids Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	CIBA FOUNDATION COLLOQUIA ON ENDOCRINOLOGY; CONTENTS; Chairman's opening remarks; Dynamics of adrenal function in man; Discussion; Variability of adrenocortical response to ACTH in different persons, and the influence of variations in administration of ACTH preparations on the level of 17-hydroxycorticosteroids in the blood; Discussion; Studies of the inter-relationship between the adrenal cortex and ascorbic acid metabolism; Discussion; Studies on the sodium-retaining effect of adrenal cortical steroids; Clinical and metabolic effects of aldosterone; Discussion The Na and K concentration in mixed saliva: influence of secretion rate, stimulation, method of collection, age, sex, time of day and adrenocortical activityDiscussion; An attempt to correlate the histological changes in the anterior hypophysis and adrenal glands in various diseases in man; Discussion; Metabolic effects of adrenalectomy in man; Discussion; Therapeutic results of hypophysectomy in metastatic carcinoma of the breast and in severe diabetes mellitus; adrenocortical function after hypophysectomy; Discussion

Virilizing adrenal hyperplasia: its treatment with cortisone and the nature of the steroid abnormalitiesDiscussion; Cushing's syndrome; Cushing's syndrome; Discussion; The reciprocal relationship between the thyroid and adrenocortical responses to stress; The possible functional significance of the pituitary-portal vessels; Discussion; Psychological responses to the administration of ACTH and cortisone; Discussion; Physiological response of the adrenal to psychological influences as indicated by changes in the 17-hydroxycorticosteroid excretion pattern; Discussion  
Adrenocortical function of combat infantrymen in KoreaDiscussion;  
General discussion; Chairman's closing remarks
