

1. Record Nr.	UNINA9910145053203321
Titolo	Journal of constructional steel research
Pubbl/distr/stampa	London, : Constrada and Granada Pub., 1980-
ISSN	1873-5983
Soggetti	Steel, Structural Building, Iron and steel Acier de construction Construction metallique - Periodiques
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Title from contents screen (ScienceDirect, viewed Jan. 23, 2006). Published: Great Britain : Elsevier Science Publishers, <1988-> Some issues also have distinctive theme titles. Refereed/Peer-reviewed
Sommario/riassunto	" ... provides an international forum for the presentation and discussion of the latest developments in structural steel research and their applications. It is aimed not only at researchers but also at those likely to be most affected by research results, i.e. designers and fabricators. Original papers of a high standard dealing with all aspects of steel research including theoretical and experimental research on elements, assemblages, connection and material properties are considered for publication."
