Sommario/riassunto	This volume presents a practical guide to the development, application and evaluation of effective interprofessional education in health and social care. It is both a practice manual for those in hands-on roles and a reflective guide for those indirectly involved in professional education. The book provides clear advice on methods of establishing training and education programmes and evaluating their effectiveness, while simultaneously examining the relationship between initial application, ongoing maintenance and subsequent assessment. The authors expound multiple points of view that will gen
