staff in the treatment of coexisting problems of mental health and
substance misuse / R. Edwards.

Sommario/riassunto

The increasing number of individuals with co-existing substance misuse and psychiatric disorders presents a key challenge to mental health and addiction nurses. This practice-based text focuses on the management and intervention strategies to effectively meet the needs of this client group in both community and residential settings. Dual Diagnosis Nursing is a comprehensive text for practitioners on contemporary approaches to working with dual disorder and dual diagnosis patients. It explores both clinical and theoretical perspectives in a variety of different care and treatment setting
