Note generali	Includes index.
Nota di contenuto	Introduction -- The decision-making process and triage -- The triage method -- Pain assessment as part of the triage process -- Patient management, triage and the triage nurse -- Auditing the triage process -- Telephone triage -- Beyond prioritisation.
Sommario/riassunto	The Manchester Triage System (MTS) is the most widely used triage system in the UK, Europe and Australia, with tens of millions of patients being processed through hospital emergency departments. Emergency Triage is the core text for the MTS which utilises a risk averse system of prioritisation for patients in all unscheduled care settings, and as such it is an essential text for all emergency department staff using the MTS, in particular triage nurses themselves. The second edition has been revised throughout and takes in the changes in practice introduced into M
