Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Continental Philosophy of Science provides an expert guide to the major twentieth-century French and German philosophical thinking on science. A comprehensive introduction by the editor provides a unified interpretative survey of continental work on philosophy of science. Interpretative essays are complemented by key primary-source selections. Includes previously untranslated texts by Bergson, Bachelard, and Canguilhem and new translations of texts by Hegel and Cassirer. <l
