Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed Title from contents screen (ScienceDirect, viewed Nov. 30, 2005). Some issues also have distinctive theme titles. Published: Elsevier, 2005-
Sommario/riassunto	" ... an international journal which publishes authoritative articles encompassing the development of innovative uses of underground space and the results of quality research into improved, more cost-effective techniques for the planning, geo-investigation, design, construction, operation and maintenance of underground and earth-sheltered structures. The journal provides an effective vehicle for the improved worldwide exchange of information on developments in underground technology - and the experience gained from its use -

and is strongly committed to publishing papers on the interdisciplinary aspects of creating, planning, and regulating underground space."
