

1. Record Nr.	UNINA9910145701003321
Titolo	Atrial fibrillation ablation [[electronic resource]] : the state of the art based on the VeniceChart international consensus document // edited by Andrea Natale, Antonio Raviele
Pubbl/distr/stampa	Malden, MA, : Blackwell Pub., 2007
ISBN	1-281-30939-7 9786611309398 0-470-69264-2 0-470-69173-5
Descrizione fisica	1 online resource (106 p.)
Altri autori (Persone)	NataleAndrea RavieleAntonio
Disciplina	616.1 616.10682
Soggetti	Atrial fibrillation - Treatment Catheter ablation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Atrial Fibrillation Ablation : THE STATE OF THE ART BASED ON THE VENICECHART INTERNATIONAL CONSENSUS DOCUMENT; Contents; Preface; Contributors; VeniceChart Task Force Composition; 1 Anatomy of the left atrium and pulmonary veins; 2 Pathophysiology of atrial fibrillation; 3 Techniques and technologies for atrial fibrillation catheter ablation; 4 Endpoints of catheter ablation for atrial fibrillation; 5 Patient management pre- and postablation; 6 Anticoagulation issues; 7 Periprocedural and late complications; 8 Short- and long-term efficacy; Index
Sommario/riassunto	In recent years, catheter ablation of atrial fibrillation has become a widespread treatment modality in electrophysiology laboratories all over the world. Nevertheless, many aspects of the therapy are controversial. Developed by world-renowned experts in the field, this book presents a comprehensive and up-to date overview of all the most important and debated aspects of atrial fibrillation ablation, including: Ablation techniques and technologies Procedural endpoints
