

1. Record Nr.	UNINA990003743370403321
Autore	Beaudichon, Janine
Titolo	La communication sociale chez l'enfant / Janine Beaudichon
Pubbl/distr/stampa	Paris : Presses Universitaires de France, 1982
ISBN	2-13-037350-X
Edizione	[1. ed.]
Descrizione fisica	320 p. : fig. ; 22 cm
Collana	Psychologie d'aujourd'hui / collection dirigée par Paul Fraisse
Disciplina	155.4136
Locazione	BFS
Collocazione	155.4136 BEA 1
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Contiene bibl. e indice delle nozioni

2. Record Nr.	UNINA9910145738003321
Titolo	Resynchronization and defibrillation for heart failure [[electronic resource]] : a practical approach // editors, David L. Hayes ... [et al.]
Pubbl/distr/stampa	Oxford, UK, : Blackwell/Futura, c2004
ISBN	1-281-32113-3 9786611321130 0-470-75772-8 0-470-75771-X
Descrizione fisica	1 online resource (242 p.)
Altri autori (Persone)	HayesDavid L
Disciplina	616.1/2906
Soggetti	Heart failure - Treatment Cardiac pacing Electric countershock Arrhythmia - Treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Resynchronization and Defibrillation for Heart Failure: A Practical Approach; TABLE OF CONTENTS; Introduction; 1. What Is Heart Failure and What Are the Treatment Options? Complex Questions; 2. Cardiac Resynchronization Therapy; 3. Electrocardiogram Interpretation With Biventricular Pacing Devices; 4. Biventricular Device Implantation; 5. Optimization of Biventricular Devices; 6. What Echocardiography May Offer Cardiac Resynchronization Therapy; 7. Implantable Defibrillators and Combined ICD-Resynchronization Therapy in Patients With Heart Failure; 8. Future of Cardiac Resynchronization
Sommario/riassunto	Resynchronization and Defibrillation for Heart Failure: A Practical Approach is one of the first texts to provide caregivers with information about the background and application of this new and rapidly expanding discipline. Its four authors are cardiologists who have expertise in device management, electrophysiology, and heart failure management. The text integrates the approach and management experience of the authors' three institutions. The aim is to bring together information from subspecialists in device management,
