Part III: Air Monitoring Methods (DFG) 363.739263 Disciplina Soggetti Electronic books. Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Bibliographic Level Mode of Issuance: Monograph Note generali Sommario/riassunto This is the sixth volume in an international series of analytical methods for the determination of toxicants in the air at the workplace. All methods are reliable, reproducable and meet the requirements for quality control. The analysis of the levels of hazardous substances in the air inhaled by workers in the chemical industry and similar working environments is necessary to monitor adherence to statutory concentration limits and to protect the workers from the adverse

effects of such substances.
