| Sommario/riassunto | The field of healthcare is constantly evolving and advancing with new technologies and innovations. Among these, assistive technologies, robotics, and automated machines are rapidly gaining ground as powerful tools to improve the quality of care and enhance patient outcomes. From wearable devices that monitor vital signs to surgical robots that assist in complex procedures, these technologies have the potential to revolutionize the way we deliver healthcare. The development and the integration of assistive technologies, care robots, and automated machines are strategic both as single components, when paired together, and when interconnected in the health domain. This reprint explores the latest developments in assistive technologies, robotics, and automated machines in the health domain, providing a comprehensive overview of their applications and potential impact. The reprint is for the benefit of healthcare professionals, researchers, engineers, and students interested in these rapidly evolving fields. |

Sommario/riassunto

Salih Alexander Wolter stellt schwule Literatur vor: von changierenden Identitäten bei »Klassikern« von Jean Genet, Juan Goytisolo und Hubert Fichte bis hin zu zeitgenössischen Perspektiven von Perihan Maden und küçük iskender. Er geht auf die realen Umstände ein, die das Schreiben der Autor*innen prägten und inspirierten, und zeigt, dass sich in ihren Arbeiten und Biografien gleichzeitig auch immer die gerade aktuellen gesellschaftlichen und politischen Auseinandersetzungen spiegeln. Schwule Literatur beeinflusst schwulen Aktivismus, schwuler Aktivismus beeinflusst schwule Literatur - die Beschäftigung mit ihr ist eine leidenschaftliche Angelegenheit und unterstützt zugleich eine reflektierte politische Haltung.
