

1. Record Nr.	UNINA9910146332303321
Autore	Claudia Manfredi
Titolo	Models and analysis of vocal emissions for biomedical applications : 4th international Workshop : October 29-31, 2005, Firenze, Italy : [proceedings] / / edited by Claudia Manfredi
Pubbl/distr/stampa	Firenze University Press, 2005 Firenze : , : Firenze University Press, , 2005
ISBN	88-8453-320-1
Descrizione fisica	1 online resource (x, 216 pages) : illustrations; digital, PDF file(s)
Collana	Atti ; ; 21
Disciplina	616
Soggetti	Diagnostic Techniques and Procedures Respiratory Physiological Phenomena Models, Theoretical Investigative Techniques Circulatory and Respiratory Physiological Phenomena Diagnosis Voice Speech Production Measurement Models, Biological
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	The ISBN, 88-8453-155-1, on back cover, is incorrect.
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	The International Workshop on Models and Analysis of Vocal Emissions for Biomedical Applications (MAVEBA) came into being in 1999 from the particularly felt need of sharing know-how, objectives and results between areas that until then seemed quite distinct such as bioengineering, medicine and singing. MAVEBA deals with all aspects concerning the study of the human voice with applications ranging from the neonate to the adult and elderly. Over the years the initial issues have grown and spread also in other aspects of research such as occupational voice disorders, neurology, rehabilitation, image and video analysis. MAVEBA takes place every two years always in Firenze, Italy.
