1. Record Nr.   UNINA9910146358103321

   Titolo   Chemometrics and intelligent laboratory systems [[e-journal]]

   Pubbl/distr/stampa   Amsterdam, : Elsevier Science Publishers B.V., 1986-

   ISSN   1873-3239

   Soggetti   Chemistry - Statistical methods
                        Computation laboratories
                        Mathematical models
                        Periodicals.

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico Periodico

   Note generali   Some issues also have distinctive theme titles.
                        Refereed/Peer-reviewed

   Sommario/riassunto   "Chemometrics and intelligent laboratory systems publishes original
                        research papers, short communications, reviews, tutorials and software
                        descriptions reporting on novel developments in techniques for
                        chemistry and related disciplines which are characterised by the
                        application of statistical and computer methods."
