Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. [339]-344) and index.
Sommario/riassunto	In this book, the author argues that in embarking on an unprecedented effort to build surveillance capabilities deeply into communications infrastructure, the U.S. government is opting for short-term security and creating dangerous long-term risks. Landau describes what makes communications security hard, warrantless wiretapping and the role of electronic surveillance in the war on terror, the economic threats posed by electronic spying, and the risks created by embedding wiretapping into communications networks. How can we get communications security right? Landau offers a set of principles to govern wiretap policy that will allow us to protect our national security as well as our freedom.

Sommario/riassunto	Fiscal sustainability analysis is the use of a simple set of tools to analyze a government's budget and its debt position, and leads to conclusions - given the government's debt level - about the appropriateness of fiscal policy. Many economists are familiar with fiscal sustainability analysis, but there is no single reference work that explains it. <i>Fiscal Sustainability in Theory and Practice</i> fills this gap. The handbook is organized around three themes: (i) basic theory and tools for everyday use, (ii) the effects of business cycles on public finance

Sommario/riassunto

How can you tap into your team's creativity to tackle today's toughest business challenges? In *The Firefly Effect*, Kimberly Douglas presents inspiring yet pragmatic insights into getting your entire team firing on all cylinders and aiming in the right direction. Comparing the difficult act of harnessing and capturing creativity to the act of catching fireflies on a summer night, she will explain:What to do when the fireflies don't show up (or when creativity dries up)How to know when it's time to find a new meadow (or a new approach, place or process)What to do if the
