Edizione	[1st ed.]
Descrizione fisica	1 online resource (302 pages) : digital, PDF file(s)
Collana	IIAS publications series. Monographs ; ; 1
Disciplina	610.95
Soggetti	Medicine - History - 19th century Medicine - History - 20th century Tibet Autonomous Region (China) Sikkim (India) Bhutan
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 15 Jan 2021).
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Front matter -- Contents -- Acknowledgements -- List of Maps and Tables -- Glossary -- Introduction -- 1. Missionary Medicine and the Rise of Kalimpong -- 2. Sikkim: Imperial Stepping-stone to Tibet -- 3. Biomedicine and Buddhist Medicine in Tibet -- 4. Medical myths and Tibetan trends -- 5. Bhutan: A Later Development -- 6. The Choice of Systems -- Conclusions -- Appendix: Attendance at Gyantse and Yatung IMS dispensaries -- Notes -- Bibliography -- Index
Sommario/riassunto	By the end of the 19th century, British imperial medical officers and Christian medical missionaries had introduced Western medicine to Tibet, Sikkim, and Bhutan. <i>Their Footprints Remain</i> uses archival sources, personal letters, diaries, and oral sources in order to tell the fascinating story of how this once-new medical system became

imbedded in the Himalayas. Of interest to anyone with an interest in medical history and anthropology, as well as the Himalayan world, this volume not only identifies the individuals involved and describes how they helped to spread this form of imperialist medicine, but also discusses its reception by a local people whose own medical practices were based on an entirely different understanding of the world.
