

1. Record Nr.	UNINA9910146581303321
Titolo	Materials & design [[e-journal]]
Pubbl/distr/stampa	[Reigate, Eng., : Scientific and Technical Press], c1982- Guilford, Surrey, : Butterworth Scientific Ltd Kidlington, Oxford, : Elsevier Ltd
ISSN	1873-4197
Soggetti	Materials Engineering design Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Title from pdf image from article (ScienceDirect, viewed Mar. 14, 2007). Refereed/Peer-reviewed
Sommario/riassunto	"Mechanisms, machines and structures have to meet increasingly stringent requirements during operation. The economic and human costs of failure during service impose a great responsibility on those who develop materials and those who select and integrate materials in a final engineering design. A critical feature of successful development is the selection of the best material based on an awareness of the capabilities and opportunities afforded by all candidate materials, coupled with a design which takes full advantage of those capabilities."
