

1. Record Nr.	UNINA9910811207903321
Autore	Ayres Jeffrey
Titolo	North America in question : regional integration in an era of economic turbulence / / edited by Jeffrey Ayres and Laura Macdonald
Pubbl/distr/stampa	Toronto, [Ontario] ; ; Buffalo, [New York] ; ; London, [England] : , : University of Toronto Press, , 2012 ©2012
ISBN	1-4426-6247-6 1-4426-9034-8
Descrizione fisica	1 online resource (419 p.)
Collana	Studies in Comparative Political Economy and Public Policy
Disciplina	330.97/0054
Soggetti	Economic forecasting - North America Global Financial Crisis, 2008-2009 POLITICAL SCIENCE / Political Economy Electronic books. North America Economic integration North America Economic conditions 21st century North America Economic conditions 21st century Regional disparities
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Introduction: North America in question / Jeffrey Ayres and Laura MacDonald -- Global economic crisis and regionalism in North America: region-ness in question? / Randall Germain with Abdulghany Mohamed -- Immovable object or unstoppable force? Economic crisis and the social construction of North America / Brian Bow -- Continental governance, post-crisis : where is North American going? / Stephen Clarkson -- The Mexican political security crisis: implications for the North American community / Jorge Cadena-Roa -- North American community from above and from below: working-class perspectives on economic integration and crisis / Teresa Healy -- Environment and energy: prospects for new forms of continental governance / Debora L. Vannijnatten and Neil Craik -- Borders and security in North America / Emily Gilbert -- Continental dissonance?

The politics of migration in North America / Christina Gabriel -- Plus ca change: double bilateralism and the demise of trilateralism / Stephanie R. Golob -- Paradiplomacy: states and provinces in the emerging governance structure of North America / James P. Allan and Richard Vengroff -- (Re)thinking the "new" North America through women's citizenship struggles in Mexico / Rosalba Icaza -- Democratic deficits and the role of civil society in North America: the SPP and beyond / Jeffrey Ayres and Laura MacDonald -- Conclusion: will North America survive? / Janine Brodie.

---

#### Sommario/riassunto

This collection begins by reviewing the recent trajectories and events that have undermined North America's trilateral relationship, then addresses concerns that go beyond NAFTA and economic issues, including labour, immigration, energy, the environment, quality of citizenship, borders, women's and civil society struggles, and democratic deficits. Although demonstrating that many informal dimensions of North American integration continue to flourish, the contributors assess whether the future will hold greater economic instability, security crises, and emerging bilateral relationships."--Pub. desc

"Can North America survive as a region in light of the political turbulence provoked by the global economic crisis? Or have regional integration and collaboration reached a plateau beyond which disintegration is likely? In *North America in Question*, leading analysts from Canada, the United States, and Mexico provide theoretically innovative and rich empirical reflections on current challenges sweeping the continent and on the faltering political support for North American regionalism.

2. Record Nr.	UNINA9910146743203321
Autore	Khriplovich I.B
Titolo	Theoretical Kaleidoscope / / by I.B. Khriplovich
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2008
ISBN	9780387752525 0387752528
Edizione	[1st ed. 2008.]
Descrizione fisica	1 online resource (X, 98 p. 15 illus.)
Collana	Lecture Notes in Physics, , 0075-8450 ; ; 747
Disciplina	530.76
Soggetti	Particles (Nuclear physics) Quantum field theory Quantum theory Physics Mathematical physics Nuclear physics Heavy ions Elementary Particles, Quantum Field Theory Quantum Physics Physics, general Theoretical, Mathematical and Computational Physics Nuclear Physics, Heavy Ions, Hadrons
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Classical Mechanics. Unexpected Questions -- Wave Phenomena and Classical Electrodynamics Without Calculations -- Atomic Physics. Minimum Calculations -- Deuteron—The Hydrogen Atom of Nuclear Physics -- Semiclassical Approximation in Complex Plane -- Quantum Electrodynamics. Again Minimum Calculations.
Sommario/riassunto	According to Newton, "In studies of science, examples are more useful than rules." With Theoretical Kaleidoscope, by Iosif Khriplovich, many concrete problems in classical mechanics, classical electrodynamics, quantum mechanics, and relativistic quantum mechanics are solved. This book is not a systematic course on theoretical physics. Rather, it uses intuitive, qualitative arguments to solve selected problems of this

remarkable science. The book is based on lectures given by the author over many years. The main source of problems addressed in the book are taken from the author's own investigations, as well as discussions with colleagues and students. With this book, the author hopes readers will be able to see the examples and engage in thoughtful discussions and arguments of their own. Topics discussed in this book include: classical mechanics wave phenomena atomic physics semiclassical approximation in complex plane quantum electrodynamics Theoretical Kaleidoscope is intended for students and physicists, both theoretical and experimentalist, and those who will appreciate seeing theoretical physics through innovative qualitative analysis.
