

1. Record Nr.	UNINA9910146943103321
Titolo	Chemical engineering and processing
Pubbl/distr/stampa	[New York], : Elsevier Science Pub. Co., 1984-
ISSN	1873-3204
Soggetti	Chemical engineering Genie chimique Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed Title from contents screen (ScienceDirect, viewed Oct. 18, 2005). Place of publication varies: The Netherlands : Elsevier, <2005-> Some issues also have distinctive theme titles.
Sommario/riassunto	"Chemical engineering and processing is a journal intended for practising engineers in industry and academia. The aim of the published articles is to demonstrate how novel discoveries, developments and theories may be used for improved analysis and design of chemical engineering equipment and processes. The journal offers space for articles on any branch of chemical engineering and is particularly concerned with mechanical, thermal and chemical unit operations, but also includes analyses relating to environmental chemical engineering and sustainable industrial development."
