

1. Record Nr.	UNINA9910147248803321
Titolo	IEEE guide for determining the effects of high-temperature operation on conductors, connectors, and accessories // IEEE Power Engineering Society Transmission and Distribution Committee, American National Standards Institute, Institute of Electrical and Electronics Engineers, IEEE-SA Standards Board
Pubbl/distr/stampa	New York, N.Y. : , : Institute of Electrical and Electronics Engineers, , 2005
Descrizione fisica	1 online resource (v, 28 pages)
Disciplina	536.57
Soggetti	High temperatures Overhead electric lines - Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The purpose of this guide is to provide general recommendations for consideration when designing new overhead transmission lines that will be operated at high temperatures. It may also evaluate existing transmission lines for operation at higher temperatures. Although this guide is intended for overhead transmission lines, most of the discussion will also be applicable to distribution lines.
