

1. Record Nr.	UNINA9910147249903321
Titolo	IEEE Std 1616-2004 // IEEE
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 2005
Descrizione fisica	1 online resource
Disciplina	363.125
Soggetti	Traffic accidents Automobiles - Accidents
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Motor Vehicle Event Data Recorders (MVEDRs) collect, record, store and export data related to motor vehicle pre-defined events. This standard defines a protocol for MVEDR output data compatibility and export protocols of MVEDR data elements. This standard does not prescribe which specific data elements shall be recorded, or how the data are to be collected, recorded and stored. It is applicable to event data recorders for all types of motor vehicles licensed to operate on public roadways, whether offered as original or aftermarket equipment, whether stand-alone or integrated within the vehicle.
