Sommario/riassunto	<p>Baby, it's cold outside . . . 'Tis the night before Christmas Eve and Holly wishes she hadn't volunteered to work the night shift. The weather is frightful and getting worse by the minute, and the same old annoying carols are blasting from the bookstore's speakers. But Holly's holiday spirit returns when the store's sexy new assistant manager arrives to keep her company. He has muscled arms, baby blue eyes, and a sweet pair of lips she wouldn't mind meeting under the mistletoe. Sam is glad the snow is keeping away customers-it gives him a chance to get close to his favorite employee. Holly has always been a mystery to Sam, like a beautiful present he'd love to unwrap. When they're trapped by a full-blown blizzard, Holly breaks into the Christmas cookie display. Sam busts out a bottle of vodka from the boss's office. Soon the two are trading heated kisses-as well as secrets neither has ever felt safe enough to tell before. What started out as one naughty night together turns into something so much more.</p>
