

1. Record Nr.	UNINA9910688356603321
Titolo	Starch : Evolution and Recent Advances / / edited by Martins Ochubiojo Emeje
Pubbl/distr/stampa	London : , : IntechOpen, , 2022 ©2022
Descrizione fisica	1 online resource (xiv, 200 pages) : illustrations
Collana	Biochemistry, ; ; Volume 33
Disciplina	664.2
Soggetti	Starch
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Starch - Evolution and Recent Advances is about the historical, scientific, and technological journey of starch so far, taking into account its traditional roles, uses, and applications as well as the most recent advances in the study of this unique polymer. It is a collective endeavor by a group of editors and authors with a wealth of experience and expertise in research and development, teaching, and quality control and public health. Chapters address such topics as the history, evolution, and health benefits of starch, advances in starch and starch product technology, the application of starch and starch-based polymeric materials in nanotechnology and environmental remediation, and much more.

2. Record Nr.	UNINA9910148596303321
Autore	Gilderdale Michael
Titolo	Melissa
Pubbl/distr/stampa	Fast Print
ISBN	1-78456-816-3
Descrizione fisica	1 online resource (267 p.)
Disciplina	823.92
Soggetti	Self-realization in literature Life
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	It is generally accepted that a single act, even a very ordinary event can change an individual's life for ever. Certainly, young Johnny Locksley finds this to be true. For him the catalyst proves to be none other than the <i>Helianthus annus</i> , the golden Sun
