### Sommario/riassunto

"This fairy godmother's got claws. When someone kidnaps the last surviving descendant of the Grandmaster of the Knights Templar, it's bad news. When the baby is the key to the tenuous alliance between a large werewolf pack and the knights, it's even worse news. They're at each other's throats before they've even begun to look for baby Constance. But whoever kidnapped Constance didn't count on one thing: she's also the goddaughter of John Charming. Modern-day descendant of a long line of famous dragon slayers, witch finders, and wrong righters. John may not have any experience being a parent, but someone is about to find out that he can be one mean mother. IN SHINING ARMOR is the fourth novel in a series which gives a new twist to the Prince Charming tale. The first three novels are Charming, Daring, & Fearless"--
