Nota di contenuto	Four faces of capitalism -- Capitalism and its crises -- Alternatives to capitalism -- Anti-capitalism -- Conclusions : from here to there?
Sommario/riassunto	The global economic crisis has catalysed debates about the merits of capitalism. Political elites have argued that capitalism is not fundamentally crisis-prone and can be successfully reformed with the right set of policies, while many have argued that a wholesale change of attitude towards the status and creation of wealth is required. In Capitalism and Its Alternatives, Chris Rogers provides a critical introduction to theories of capitalism and to the forms of its crises through history, as well as reflecting on anti-capitalism and the ways that economic and social relations are shaped, reshaped and resisted. The book asks two key questions: What alternatives to capitalism exist? And by what processes and through what institutions might they be achieved? -- from back cover.

Sommario/riassunto	Koffi Martin Yao's 'Famille entre Contradiction et Espérance' examines the evolving state of the family in contemporary Europe amidst societal and economic changes. The book highlights the growing divide between traditional family values and modern societal norms, such as same-sex marriage and gender theory. Yao, a sociologist and theologian, argues for the centrality of the family as a foundation for human existence and societal development. He emphasizes the need to strengthen familial bonds to combat social isolation and poverty. The work is aimed at individuals with a strong interest in societal issues and promotes the family as a source of hope and stability in a rapidly changing world.
