erotic transference as an enactment of a childhood incest trauma

CHAPTER FOURTEEN Education, training, and supervision for analyzing the incest traumaREFERENCES; INDEX

Sommario/riassunto

Childhood sexual abuse within the family of origin and society's institutions, such as the church, education, sports, and the world of celebrity, has been neglected as a significant issue by psychoanalysis and society. The incest trauma needs to be understood as one of the most significant problems of contemporary society. This book is an attempt to re-establish incest trauma as a significant psychological disorder by tracing the evolutionary trajectory of psychoanalysis from the Seduction Theory to the Oedipal Theory to the Confusion of Tongues Theory. By examining the theoretical, emotional, interpersonal, and political issues involved in Freud's abandoning the Seduction Hypothesis and replacing it with the Oedipal Complex, we can see how system building became more important than the emotional welfare of children. In a series of chapters the authors demonstrate this neglect of the incest trauma.

Sommario/riassunto

The bright colours and fascinating ways of this small but important group of insects attract immediate attention. Cicindelidae, or tiger beetles, are frequently encountered, but they are difficult to capture, since they are alert and elusive, and still more difficult to identify. This intensive study of the distinguishing characteristics, geographical distribution and variation, and habits and habitats of tiger beetles in Canada-the culmination of the author's main interest for many years-will provide a much-needed reference work. Studies of insect families are scarce, and professional and amateur entomologists alike will find this book a most useful aid in their investigations and a stimulus to further research.

Sommario/riassunto

More than fifty years after her death, Eleanor Roosevelt is remembered as a formidable first lady and tireless social activist. Often overlooked, however, is her deep and inclusive spirituality. Her personal faith was shaped by reading the New Testament in her youth, giving her a Jesus-centered...
