

1. Record Nr.	UNINA9910148705803321
Titolo	Dental composites // Frederick C. Calhoun, editor
Pubbl/distr/stampa	Hauppauge, New York : , : Nova Science Publishers, , [2011] ©2011
ISBN	1-61761-140-9
Descrizione fisica	1 online resource (327 pages) : illustrations
Collana	Dental science, materials and technology
Disciplina	617.6
Soggetti	Dental resins Composite materials
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Resin composites for post cementation and core build-up / Juthatip Aksornmuang -- Design and development of novel urethane dimethacrylate monomers for use in dental compositions / Tinca Buruiana, Violeta Melinte, Emil C. Buruiana -- Dental composites with nano-scaled fillers / Matthew J. Little, Hao Fong -- Mapping the structure, composition, properties and dental erosion in human enamel / I.M. Low, A. Alhuthali, N. Duraman -- Effect of filler content and size on mechanical properties of dental resin composites : experimental and computational investigation / Yasuhiro Tanimoto ... [et al.] -- Inhibition of telomerase activity in HL-60 cell line by methacrylic monomers / B. Sampaolese ... [et al.] -- Scale development to assess psychological states in dental patients / Naoki Kakudate ... [et al.] -- Trends in dental polymer nanocomposites / Irini D. Sideridou -- Dental nanocomposites / Seyed Shahabeddin Mirsasaania, Maryam Sarmast Shoushtaria -- On the critical parameters that regulate self-organized biocomposites / Yo Shibata ... [et al.] -- The annual effective dose assessment during panoramic oral radiography including the dental errors examinations to the patients in Albania / Alketa Qafmolla ... [et al.] -- Effects of using recycled nickel-chrome based alloys in the preparation of metallic restorations / L. Sharanaprabhu ... [et al.] -- Development of low-shrinkage dental composites in dentistry : a review of the trends and techniques applied / Mui Siang Soh ... [et al.] -- Design, characterization and evaluation of biomimetic polymeric dental
