

1. Record Nr.	UNINA9910148726803321
Autore	Stepanov Andrey L.
Titolo	Ion-synthesis of silver nanoparticles and their optical properties / / Andrey L. Stepanov
Pubbl/distr/stampa	Hauppauge, New York : , : Nova Science Publishers, , [2010] ©2010
ISBN	1-61728-641-9
Descrizione fisica	1 online resource (103 pages) : illustrations
Collana	Nanotechnology science and technology
Disciplina	620.1/8923
Soggetti	Silver - Optical properties Nanoparticles - Optical properties Dielectrics - Optical properties Ion implantation Ionic structure
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Depth distribution and diffusion of sylver ions during implantation -- Depth distribution of sylver ions in dependence on irradiation energy and surface sputtering effects -- Synthesis of sylver nanoparicles by low energy ion implantation -- Ion synthesis of silver nanoparticles in glass at room temperature -- Optical reflectance ion-synthesised silver nanoparticles -- Effect of surface temperature on silver nanoparticles formation -- Silver nanoparticles formation at different current densities -- Thermal annealing of dielectrics with implanted silver nanoparticles -- Nonlinear optical absorption of ion-synthesised silver nanoparticles -- Laser annealing of glasses with ion-synthesised silver nanoparticles -- Ion synthesis of silver nanoparticles in polymer matrix.
