Clio Takes the Stand: A Turning Point -- 6. Clio Takes a Stand: From the Turning Point to the Point of No Return -- Implications: From the Classroom to the Courtroom and Back
Sommario/riassunto	This book scrutinizes the emergence of historians participating as expert witnesses in historical forensic contribution in some of the most

important national and international legal ventures of the last century. It aims to advance the debate from discussions on whether historians should testify or not toward nuanced understanding of the history of the practice and making the best out of its performance in the future.
