The coming economic collapse? ; A welcome revolution comes to America ; The sleeping giant will awaken: How Eddie will save America.

Sommario/riassunto

Listeners to Michael Savage's radio talk show, The Savage Nation, know him to be an engaged spokesman for traditional American values of borders, language, and culture. Now, after eight years of Barack Obama, Dr. Savage lays out a case for how our nation has been undermined by terrorists from without, by anarchists from within, by a president and politicians with contempt for the Constitution and the law, and by a complicit liberal media. He makes a case for the dangers we face from Hillary Clinton and her fellow travelers in the progressive movement. He also explains why Donald Trump may be one of the two best hopes for America's future as we try to regain control of our government, our country, and our national soul. The other hope? It is we, the people: the ordinary "Eddies," as he calls them--motivated, roused, and engaged. This book is about much more than an election. It is a veteran commentator and raconteur providing a blueprint for how to regain our cherished freedoms and our national identity ... before they are lost forever.
