Sommario/riassunto	The extent of the so-called History of David's Rise has been indecisive, and as a result, various issues around the document have been left extremely flexible. This comprehensive monograph sees the root of the problem in inadequate methodological reflection, and seeks to provide sensible answers to the source-critical question on the basis of hermeneutic and literary reflection.

2. Record Nr.	UNINA9910148782403321
Autore	Ariely Dan <1968->

Pubbl/distr/stampa	HarperCollins UK
ISBN	0-00-749207-3
Disciplina	155.232
Lingua di pubblicazione	Inglese
Formato	Musica
Livello bibliografico	Monografia
Sommario/riassunto	<p>Fascinating and provocative, Ariely's The Truth About Dishonesty is an insightful and brilliantly researched take on cheating, deception and willpower. Internationally bestselling author Ariely pulls no punches when it comes to home truths. Previous titles PREDICTABLY IRRATIONAL and THE UPSIDE OF IRRATIONALITY have become classics in their field, revealing unexpected and astonishing traits that run through modern humankind. Now acclaimed behavioural economist Dan Ariely delves deeper into the dark and murky recesses of contemporary psychology, daring to ask the big questions: What makes us cheat? How and why do we rationalise deception of ourselves and other people, and make ourselves 'wishfully blind' to the blindingly obvious? What affects our infuriatingly intangible willpower and how can we 'catch' the cheating bug from other bad apples? If you've ever wondered how a whole company can turn a blind eye to evident misdemeanours within their ranks, whether people are born dishonest and whether you can really be successful by being totally, brutally honest, then Dan has the answers, and many more.</p>
