Sommario/riassunto	Angela Clark has fallen in love with New York-and it's starting to love her back. But when she's summoned home to England, she's at risk of losing her shiny new life to rain, warm beer, and bad memories. Talk about stepping back in time. There's Mark, the ex-boyfriend she ran to New York to get away from. There's Louisa, her best friend, with her terrifying new baby. And there's her mum, still talking to her as though she's fifteen. And now there's a wedding in the offing-and everyone remembers how well Angela behaved at the last one. Can the arrival of boyfriend Alex and best friend Jenny save her from a rerun of her old self?
