

1. Record Nr.	UNINA9910149165703321
Titolo	Anesthesia and Perioperative Care for Organ Transplantation // edited by Kathirvel Subramaniam, Tetsuro Sakai
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2017
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XXIII, 586 p. 204 illus., 179 illus. in color.)
Disciplina	617.96
Soggetti	Anesthesiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Part I: General Topics -- 1 Ethical Considerations for Organ Transplantation -- 2 Prevention of Perioperative Infections in Organ Transplant Recipients -- 3 Donation after Cardiac Death -- 4 Living Related Organ Transplantations -- 5 Intensive Care of the Deceased Multiorgan Donor: One Donor, Nine Lives -- 6 Anesthetic Management of Donor Organ Retrieval in a Multiorgan Donor -- Part II: Lung Transplantation -- 7 Preoperative Evaluation and Preparation for Lung Transplantation -- 8 Bilateral Sequential Lung Transplantation: What the Anesthesiologist Needs to Know About the Surgical Approach -- 9 Anesthetic Management for Lung Transplantation -- 10 Postoperative Critical Care of Lung Transplant Patients -- Part III: Heart Transplantation -- 11 Heart Transplant Patient Selection and Preparation -- 12 Surgical Techniques of Heart Transplantation and Heart–Lung Transplantation -- 13 Anesthetic Management of Cardiac Transplantation -- 14 Postoperative Care of Heart Transplant Patients -- Part IV: Special Considerations for Thoracic Transplantation -- 15 Perioperative Management of Pulmonary Hypertension -- 16 Extracorporeal Life Support following Thoracic Organ Transplantation -- 17 Perfusion Management for Thoracic Transplantation Surgery -- 18 Anesthesia for Noncardiac Surgery following Thoracic Organ Transplantation -- Part V: Kidney and Pancreas Transplantation -- 19 Kidney Transplantation: Overview -- 20 Preoperative Recipient Evaluation and Preparation (Kidney) -- 21 Anatomy and Surgical

Procedures for Renal and Pancreas Transplantations -- 22 Anesthesia and Intraoperative Management of Renal Transplantation -- 23 Postoperative Care of Renal Transplant Recipients -- 24 Anesthetic Management of Patients Undergoing Pancreas Transplantation -- Part VI: Liver Transplantation -- 25 Liver Transplantation: Historical Perspective -- 26 Preoperative Liver Recipient Evaluation and Preparation -- 27 Anatomy and Surgical Procedures of Liver Transplantation -- 28 Liver Transplantation Anesthesiology -- 29 Postoperative Care of the Liver Transplant Recipient -- 30 Multiorgan Transplantation Including the Liver -- 31 General Anesthesia for the Patient with End-stage Liver Disease and Post Liver Transplantation -- Part VII: Special Issues in Liver Transplantation -- 32 Acute Liver Failure: Perioperative Management -- 33 Portopulmonary Hypertension and Hepatopulmonary Syndrome -- 34 Renal Dysfunction in Hepatic Failure -- 35 Cirrhotic Cardiomyopathy and Liver Transplantation -- 36 Coagulation Abnormality and Its Management -- 37 Simulation: In Anesthesia for Liver Transplantation -- Part VIII: Multivisceral Transplantation -- 38 The Historic Evolution of Intestinal and Multivisceral Transplantation -- 39 Technical Innovation and Visceral Transplantation -- 40 Preoperative Recipient Evaluation for Visceral (Intestine, Intestine/Liver, Multivisceral) Transplantation -- 41 Anesthesia for Multivisceral Transplantation -- 42 Multivisceral Transplantation: Intraoperative Vascular Access Strategy -- 43 Postoperative Management for Visceral (Intestine, Intestine/Liver, and Multivisceral) Transplantation -- Part IX: Composite Tissue Graft Transplantation -- 44 Reconstructive Transplantation: Evolution, Experience, Ethics and Emerging Concepts -- 45 Reconstructive Transplantation: Program, Patient, Protocol, Policy, and Payer Considerations -- 46 Anesthesia for Composite Tissue Allografts -- 47 Postoperative Management of Composite Tissue Graft Transplantation.

Sommario/riassunto

This comprehensive textbook, covering all aspects of the perioperative management of patients undergoing organ transplantation, serves as the standard reference for clinicians who care for transplant patients on a day-to-day basis as well as those who encounter organ transplantation only occasionally in their clinical practice. Anesthesia and Perioperative Care for Organ Transplantation covers transplantation of the heart, lung, liver, pancreas, and kidney, as well as multivisceral and composite tissue graft transplantations. For each kind of transplantation, the full spectrum of perioperative considerations is addressed: preoperative preparation, intraoperative anesthesia management, surgical techniques, and postoperative care. Each chapter contains evidence-based recommendations, relevant society guidelines, management algorithms, and institutional protocols as tables, flow diagrams, and figures. Photographs demonstrating surgical techniques, anesthesia procedures, and perfusion management are included. Anesthesia and Perioperative Care for Organ Transplantation is for anesthesiologists and critical care physicians; transplantation surgeons; nurse anesthetists; ICU nurses; and trainees.
